PROFILE

Currently enrolled in the Computer Programmer course at Confederation College and expected to graduate on June 7, 2019. However, I can begin as work placement student **starting on March 25, 2019** or starting on April 22, 2019 as a full-time employee.

Previously I was working in the computer game industry as a game designer. Therefore, I have the ability to work under high-pressure in a fast-paced environment very efficiently.

List of the key strength:

- IT Helpdesk experience
- Proficient understanding with the complete software development cycle
- Advanced appreciation of various multicultural work experiences
- Flexibility to work independently or as part of a team
- Effectively communicate with co-workers and clients
- Proficient with collaboration tools such as Git, Subversion, Trac, and Bugzilla

EXPERIENCE
