PROFILE

Currently enrolled in Computer Programmer course at the Confederation College and expected to finish in 2019.

Previously I was working in the computer game industry as a game designer and project manager. Therefore, I have the ability to work under high-pressure in a fast-paced environment very efficiently.

List of the key strength:

- A year IT help desk experience
- 7+ years computer game industry experience
- Experiences with the complete software development cycle
- 5+ years project management and/or team managing experience
- Advanced understanding of various multicultural work experiences
- Able to work independently or as part of a team
- Ability to effectively communicate with co-workers and clients
- Aware of collaboration tools such as Git, Subversion, Trac, and Bugzilla
